

1. DAIRY FARMS IN WESTERN GEORGIA

No	Name	Address	Range of products	Approximate production	Contact person	Note
1	"Angel Products" LTD Samegrelo Region	Abasha district, Near village Ketilari 65 km from Kutaisi	Sulguni (cheese)	Present production: 120 liters of milk processed into sulguni	Roin Chaganava Director, Nona Betchvaia	The company has 12 cows in milk (mixed Russian red and Mengrelian red cows of 400-450kg liveweight). They rent 52 ha of land of which 20 ha is grass/clover pasture (10 years lease). Cows are Russian and Georgian mix breed with the average 20 liter productivity Winter feeding consists of maize stover, hay and wheat bran (up to 8kg per cow per day). From May until the end of October cows are grazing outside supplemented with up to 4 kg wheat bran per day.
2	Valiko Miminoshvili Farmer Samegrelo Region	Abasha district, Near village Ketilari 68 km from Kutaisi	Sulguni, cheese	Average 60 kg per day	Valiko Miminoshvili	Has 20 Buffalo's and 44 Cows
3	Farm of Zestafoni Ferro allow Plant Imereti Region	Zestaphoni district, Adjameti 30 km from Kutaisi	Imeretian Cheese	Average 5-6 kg cheese per day	Zurab Mdivani	Farm belongs to Ferro Plant (to supply . Projected for 150 cows) Today has only 13 cows and 11 buffalo's. The farm has 60 ha. pasture. Farm is located near Adjameti Pasture and tillage zone
4	Merab Mshvenieradze, Farmer Imereti Region	Zestaphoni district, Village Tskentaro 34 km from Kutaisi	Imeretian Cheese	Average 15 kg cheese per day	Merab Mshvenieradze	Has 30 cows, from which 10 are milkable now. Productivity 8-9 liter per cow (winter time) Premise is for 150 cows. Rents 15 ha. tillage, 2 ha. fish pond Using only pasture and maize stems for feed
5	Aliosha Tskipurishvili, Farmer Imereti Region	Terjola district Village Dzevri, 48 km from Kutaisi	Milk (sold to Kutaisi Milk Factory in summer) Imeruli cheese made in winter Fattened bulls sold at 2-2.5 years	Average 150 liter milk per day (milk for cheese included)	Aliosha Tskipurishvili	Farmer has 20 head of cattle (Kwarachalia breed). Ten cows will calf in May. Cows are calving throughout the year but calving in May is preferred (pasture available, possibility to sell fresh milk in summer). Average lactation yield (8 months) is 2,500kg. peak production is 20-24kg/day. Fresh milk sold ex farm for GeL0.35/l. Rents 10ha of pasture located around the farm buildings. Winter feeding mainly maize stover and boiled soybeans.
6	Chalatke Ltd (goat farm) Imereti Region	Terjola district Village Gvarkiti 48 km from Kutaisi	Cheese	Average 25 kg cheese	Bidzina Butskrikidze	Farm has 100 goats
7	Kote Kochiashvili Farmer Imereti Region	Bagdati district Apkhanauri 25 km from Kutaisi	Imeruli cheese Fattened bulls sold at 300kg live weight (2.5 years)	Produces about 120kg milk per day	Kote Kochiashvili	Mixed farming operation (fish ponds, horticulture, dairy, crops (maize/turnips)). Has 60 cows, from which 21 milkable, 10 expected in April. He owns 200 ha Pasture in Sairme mountain region 100 km from farm, where cattle graze from May till November. Productivity of cows 12 liter milk/day Winter feed consist of hay, crop stubbles, maize stover, wheat bran and some turnips

No	Name	Address	Range of products	Approximate production	Contact person	Note
8	Vajha Kbilashvili Imereti Region	Bagdati district Persati 22 km from Kutaisi	Cheese	120 milk liter per day for cheese	Vajha Kbilashvili	Has 30 cows, 20 of them milkable Big problem with feed during winter time
9	Gogi Urushadze Farmer Guria Region	Lanchkhuti dDistrict Village Guliani 78 km from Lanchkhuti	Cheese	60 milk liter per day for cheese	Gogi Urushadze	Has 25 cows, 10 ha. Pasture,
10	Shukri Kvachadze Farmer Guria Region	Lanchkhuti district Village Lesa	Cheese		Shukri Kvachadze	Has 80 cows In the village Lesa there are other farmers who have 80-100 cows. Productivity of cows in winter - average 6 liter/day During summer - 10-12 liter/day
11	Arsena Shengelia Farmer Guria Region	Lanchkhuti district Supsa	Cheese		Arsena Shengelia	Has 100 cows
12	Yuri Gabedava Farmer Guria Region	Lanchkhuti district Village Mamati, Gogina	Cheese		Yuri Gabedava	Has 25 cows
13	Bezhan Ugre Khelidze Guria Region	Lanchkuti District Lesla village	Intends to make imeruli cheese	No production yet	Bezhan Ugre Khelidze	Farmer has recently taken over the lease of 12ha farm land (7ha pasture and 5ha maize) and buildings of a former sovchoz dairy farm. He has 20 dairy cows. Cows are outside day and night from end of March until the end of December. Formerly fodder crops (turnips, fodder beet, alfalfa, red clover) were grown. Presently seeds are no longer available. In Lesa there are about 1500 cows and 600 families. This area is similar to that of the Tkiri Co-operative Farm, north of the proposed Kolkheti National Park
14	Mr Pata	Lanchkuti District Supsa	Imeruli cheese	Buffalos: 2-3l/day, cows: 10l/day Maximum production in summer is 80 litres/day	Mr Pata	The farm leases 40ha of land, consisting of natural pastures The land is wet, without proper drainage. Winter feed consist of hay and maize stover without supplementary feeding. The cows graze throughout the year. Only in January and February they stay inside during the night.

2. DAIRY FARMS IN EASTERN AND SOUTH GEORGIA

No	Name	Address	Range of products	Approximate production	Contact person	Note
1	Individual Farmers Kartli Region	Dusheti District villages: Charbati Satsaburi	Cheese		David Bigvava Agriculture Department of Dusheti	4 farmers who have each 40-50 cows. From May till November nomadic type of farming in mountain area
2	Jemal Ejibadze Kartli Region	Khashuri District Zemo Osiauri	Cheese		Jemal Ejibadze	Has 50 cows, about 35 milkable. Rents 200 ha. tillage and pasture. Jemal Ejibadze a owner of the Bakery in Khashuri
3	Tskhramukha Ltd Kartli Region	Khashuri District village Tskhramukha	Cheese, Curd		Murman Gogoladze Director	28 Cows . average Productivity 8-10 milk /per cow
4	Givi Matiashvili Kakheti Region	Gurjaani District Velistsikhe (between Gurjani and Kvareli, on river Alazani)	Fresh milk sold to traders	80-300 litres of milk per day depending on season	Guivi Matiashvili	Has 40 Cows (10 in milk, 10 dry cows, 20 heifers, calves and bulls) of Caucasian brow breed. Uses Brown Swiss bull and own 10 ha pasture. Peak calving period is in February-May. Average lactation yield is 3,500litres (10 months). Peak milk production 20-24 litres per day, with concentrates. land includes 16ha fenced pasture and 4ha arable land (barley/maize). He also uses 60ha communal pasture. Poor winter feeding (hay and barley straw, some concentrate) Cows kept inside from mid December until end of March. Good veterinary care. Farmer uses tractor and equipment hire services. This farm has relatively good conditions for the area.
5	Parnaoz Simonishvili farmer Kakheti Region	Gurjaani District Vejini (on the plains west of Gurjaani)	Cheese	10-15 litres of milk per day	Parnaoz Simonishvili	Fifty head of cattle (Caucasian Brown) and 300 sheep. Housing conditions are poor. Milk production concentrated in summer (May-September). Cows are kept inside from December until end of March and are fed hay and straw and some barley, maize and wheat bran. July and August are relatively dry with little grass production. Smallholder farmers send their cattle to the mountains. This farmer is lucky to have land along the river.
6	Michael Osurishvili Kakheti Region	Gurjaani District Bakurtsikhe	Cheese		Michael Ourishvili	25 Cows + 17 buffalo
7	Signagi Kakheti Region	Signagi district	Cheese		Farmers	There are several farmers who have more then 30 cows
8	Avtandil Lekashvili Kakheti Region	Dedoplistskaro District Dedoplistskaro	Milk for local Milk factory Cheese		Avtandil Lekashvili	Has 32 Cows. 50 ha. Pasture Cow productivity - 8-10 liter/day during winter time

No	Name	Address	Range of products	Approximate production	Contact person	Note
9	Amiran Iakobashvili Kakheti Region	Dedoplistskaro District Zemo Machkaani	Milk for local Milk workshops Cheese		Amiran Iakobashvili	More than 30 cows. 100 ha. Pasture
10	Gocha Latibashvili Kakheti Region	Dedoplistskaro District Dedoplistskaro	Milk for local Milk workshops cheese		Gocha Latibashvili	More than 30 cows. 60 ha Pasture
11	Shota Tsiskarauli Kakheti Region	Dedoplistskaro District Dedoplistskaro	Milk for local milk workshops Cheese		Shota Tsiskarashvili	More than 30 cows.
12	Co-operative Pirosmani Kakheti Region	Dedoplistskaro District	Milk supplied to small milk workshop in Dedoplistskaro		Mr Lobjanidze Shalva	Farm located in an area with natural pastures on hilly land arable crops on flat land (however arable farming on slopes is increasing). Around the farm is 300ha of pasture of which part is fenced. Herd size is 80, including 45 cows of which 22 presently in milk. Milk yields less than 20l per cow, down to 7l in winter. lactation yield is 2,000-2,500 litres. Young bulls are sold at 2 years of age (no market for younger animals). Farm is part of a Co-operative consisting of 2 dairy farms, 2 sheep farms and 1 crop farm. Winter feeding consists of hay, poor quality maize silage, and sometimes wheat bran. In summer only grazing.
13	Private dairy farm Samtskhe-Javakheti Region	Ninotsminda District (Farm site with stables in town, pastures and arable land outside town)	Milk processed on farm into emeruli type cheese.		Mr Kuemchian Liparit, Agricultural Officer	A medium scale private dairy farm with 70 cows (60 in milk) 130ha pasture and 32ha of arable land. winter feed consists of hay of alpine pastures, silage of natural grassland, silage of rye and concentrates if available (wheat bran, rye, barley). In summer cows graze alpine pastures. Cows are milked in the pastures and milk is brought to the farm site in town for processing. lactation period is about 9 months, lactation yields 2-2.5t, maximum daily production per cow 15-18litres. first calving normally occurs in the 3 rd year. Breed: mixed swiss brown/caucasian brown. Bull calves are sold at 1-2 months (main reason to sell early is lack of housing, not the low milk price.

Comments: Gurjaani, Dedoplistskaro, and Signagi districts of Khaketi region are farming and Eldari and Shiraki Pature zones are main pastures of Georgia. Small milk receiving and processing workshops and milk factory workshops can be found in Dedoplistskaro.

3. DAIRY PLANTS IN WEST GEORGIA

No	Name	Address	Range of products	Nominal and Actual production	Contact person Tel/Fax	Note

11	Narinji Cheese and butter factory Guria Region	Lanchkhuti Tabukashvili 3				Last 5 years not functioning

No	Name	Address	Range of products	Nominal and actual production	Contact person Tel/Fax	Note
12	Batumi Milk Factory Joint Stock co. Adjara Region	Batumi Griboedovi st. 62	Sour cream Cottage cheese Matsoni Ice cream	Nominal capacity: 30t per day. Actual production 15t/day.	Amiran Kharadze Chief executive Guram Katamadze Director Tel: 7 56 81 2 81 02	The company makes all products from milk powder the factory faces problems with regard to fresh milk supply and marketing (market is full of imported milk products)

Comments:

Distribution - In the shops and Groceries of Kutaisi there are **Kutaisi Milk Factory** and **Santa Welsh (Tbilisi company)** products, also Yoghurt from Germany. on Batumi market there are Russian dairy products imported from Sochi Port.

Many peasants supply directly citizens by milk and matsoni. That is a main problem of milk factories.

4. DAIRY PLANTS IN EAST AND WEST GEORGIA
